MESSAGE FROM THE CEO

Sam Vonumu: CEO & Founder
Rena Vonumu: Co-Founder
Stella Vonumu: Volunteer

21 years and going is a wonderful feeling for me and my wife Rena Vonumu. Uplift a Child is a passion for us and because of that, we do not feel that we will ever retire in life. Our retirement is only when we are physically handicapped and that too, only if the mind is not working. Every phone call, every meeting, every mile we drive always inspires us because, it gives us a hope that one more child can be in school with that little effort.

2021 was a great year for Uplift a Child financially. Despite of COVID issues, our sponsors have helped us with their donations, and we were able to pay all the bills without missing any. The schools in India, Kenya and Congo have commenced at 50%. But our children have made use of their time well by doing their best in studying from home with the available study material. According to me, their learning might be at 75% in spite of all the difficulties. Hopefully, 2022 will put them back at 100%. Along with educational support, we have done a lot of support activities for our children's families with food supplies, medicines and other supplies.

Our short term goal now is to build 2 orphanages. One is in South India (Nuzvid, AP area) and the other one is in North India (Mendabari, Assam). Both projects will be hosting 1,000 orphan/semi-orphan children (at each of those locations). We have already purchased land with our personal funds (planning to donate it to Uplift a Child) for the 2 projects and it would cost \$5M (Five Million US Dollars for the 2 projects). With God's blessings and people's support, we will succeed so that 2,000 children will have a new home and their future will be guaranteed 99%. Our sponsors and volunteers are our 2 pillars, and we are always thankful to them. We would like to welcome any new sponsors and donors who would like to join our cause and add value to all.

OUR NETWORK

VISION

Leave No Child Behind For Education

MISSION

Identify underprivileged children from age 4-16 years, admit them to a good English medium school, and support them for 12 years of education. This will keep the children off the streets, provide them with the basic skills to develop and allow them to emerge as self-reliant and productive members of society. By the time the children complete high school, they will have the necessary social skills and will be mature enough to plan and work towards a bright future. Until then, we work with each child in helping the child grow in the right direction.

NON-DISCRIMINATORY POLICY

Uplift a Child International supports eligible candidates without regard to race, religion, national origin, disabilities, sexual orientation or family composition. All our programs are administered in a non-discriminatory manner in conformance with applicable law.
